

I am against HR 4026 and NAB petition 04-160. With the corporitization of radio, thanks to FCC, there is less and less variety and choice in Los Angeles. The traffic and weather channels provide a benefit that isn't found elsewhere, and the music on XM Radio and Sirius represents a diversity that the corporate owners of broadcast radio don't allow. Vote against NAB petition 04-160 and for letting people choose what they listen to.
